

UL-80

Low Odor Polyaspartic Floor Coating

UL-80 is a two component polyaspartic floor coating that provides excellent UV, chemical, and abrasion resistance plus a 24 hour return to service time. UL-80 is a versatile coating primarily used as a top coat over broadcast systems. Unlike similar 80% solid products, UL-80 has low to no odor, making it a great option for interior applications. UL-80 is sold clear, but may be pigmented using the Professional Flooring Universal Color Packs.

- Fast return to service time, can accept vehicle traffic in 24 hours
- UV Stable, excellent chemical, abrasion and heat resistance
- Can be applied at temperature between 30°F to 90°F
- Available in gloss finishes
- Low to no odor
