Quartz

QUARTZ

Beautiful and resilient! Our brilliantly colored quartz is uniformly shaped and provides optimal durability, extreme performance and decorative appeal for the most demanding installations. Makes resinous flooring resilient to harsh chemicals, UV degradation and heavy traffic while providing anti-slip properties. Available in ten standard colors and a custom option with nearly limitless potential.

Metallic Pigments

METALLIC

Dress to impress! Our metallic pigments provide pearlescent and iridescent effects that mimic granite, marble and other natural stone. Provides installers and end-users the custom high performance flooring that simply can't be recreated with other commercial floor coverings. Use a single pigment for a subdued look or add accent colors for a more dramatic floor.
